15:30 CET | 8:30 US CENTRAL

EVENT AT GLANCE

Connecting innovation and the global dairy industry

IFCN
Dairy Data · Knowledge · Inspiration

PROGRESSIVE DAIRY

Since 2022

We are hosting the Global Dairy Tech Briefing for the sixth consecutive year due to its overwhelming success in driving innovation and connecting key players in the dairy technology sector.

More than 200 mapped companies

We have mapped over 200 companies from across the globe, ranging from startups to established leaders throughout the entire dairy supply chain, to highlight innovations and foster collaboration that drive progress in the industry.

Global Industry Reach

The event brings together participants from around the world, representing all segments of the dairy supply chain, with an average of more than 400 registrations per edition.

PURPOSE & IMPACT

The only global overview of dairy tech companies & trends

Stay Ahead of Trends

Gain early insights into emerging dairy technology innovations and global market shifts to keep your business ahead of the curve.

Connect Globally

Expand your network by engaging with international experts and innovators driving change in the dairy tech industry.

Exclusive Insights

Access unique data and analyses unavailable elsewhere to sharpen your competitive edge and strategic decisions.
